

Building capacity for teen pregnancy prevention and youth development.

## **Needs Assessment Survey**

As always, we are committed to providing training, consultation, and support as you continue implementing sexual health education, whether virtually, in-person, or a combination of both.

Given that many of you are implementing sexual health education remotely or within a hybrid model (remote/in-person), we hope to better understand your current support needs. **The estimated time to complete the survey is 6 min.**

[Take the survey here](#)

## Upcoming Professional Development Offerings

Training: Teaching Comprehensive Sexual Health Education (CSHE) Virtually

**SAVE THE DATE: October 20th and October 27th 2:30-4:30**

This training offers guidance on best practices for teaching sexual health virtually. All current and past intervention partners (IPs) are welcome to attend whether or not you have recently submitted surveys.

Community of Practice Virtual Meeting.

**SAVE THE DATE: Monday, November 9th, 3:00-4:30**

Each community of practice meeting is a facilitated conversation to learn from your peers, share best practices, and solve problems together. WA PREP trainers will include information on current research and trends for improving teaching practices. All current and past Intervention Partners are invited to join us for these meetings.

## Recruitment for new WA PREP Partners

Do you know of a school district or organization that might be interested in participating in WA PREP? Please feel free to share our contact information
